## Food

Several registrants comment catering excellent to good and enjoyed venue.

Several registrants wanted some healthier options and some light options before dinner on Friday.

Queue for tea and coffee long.

One registrant commented chosen venue may have been less expensive.

## Organisation

Lots of info pre-conference

Thank you to ACNC staff - another terrific conference - see you in Melbourne

Excellent content as always

Notify on website finalised program earlier as it makes it easier to book ex and accommodation

Like the dinner for networking, don't have to think about finding somewhere to eat

Venue accommodation was very expensive.

First time presenter - found the IT assistance very helpful and eased my concerns

Time keeping needs to be reviewed

## Promotion

Travel scholarships - minimal knowledge of these

Despite a 28 year cardiology career in Sydney I have only really become aware of the existence of the ACNC this year through this conference,

Advertise info about scholarships earlier

Encourage everyone to be a FB friend of ACNC as it is the easiest way to stay up to date

## Venue

Venue - great location - conference room comfortable, lighting good, slides easy to read

Several comments on variable temperature in the room.

Very noisy venue during daytime presentations

Very small, tables are more socialable and easier to take notes on;

Meal seating too close

Two conferences in a limited space was not ideal – acknowledge ACNC did not have any control over this.

Venue accommodation was very expensive and needs to be linked with conference registration.

## Abstract Submission

Abstract presenter - submitting process very easier, however guidelines for presentation would have been appreciated in email with regards to presentation

abstract presenter, first time presenting for me, found IT assistant helpful and eased a lot of my concerns, felt very nervous but it eased it

Found the lack of instruction as to what to do regarding poster presentation after abstract acceptance, sizing requirements etc;

## Program

Great work by ACNC members with Microphones

Excellent speakers, great range of expertise, relevant content,

Case studies were terrific, well done to those nurses

Excellent high quality conference, good presentations with a variety of relevant contemporary topics

More clinical focus ie learned aspects from case reviews

Session on ACS standards was great as I am on the floor and hear about this bigger picture rollouts

Medical presentations were excellent

Perspective of pre-hospital thrombolysis angiography, great food for thought for a Cardiac Nurse working in a tertiary hospital

Good mix of science with practical/clinical case studies

Content very good

Aboriginal presentation was very good .. Please include every year

Early release of program to facilitate decisions

Difficult to attend concurrent sessions.

More CDM CV disease

Perhaps making presentations available on website or complimentary USB web stick

Several registrants appreciated clinical focus and case studies.

Include CC aspect of CV nursing

Nice appreciation of each others roles overlapping

Still nice to see medical advances

Publication workshop was great

Nice to see so much nursing research going on at a local & high level

Huge amount of effort Pub WS - great presenter

Maybe next year consider attendees bring work in progress and have material critiques (publishing workshop)

Need 2 smaller days or 1.5 days as there was too much info

## Dinner

Some attendees were not aware that dinner was included in the registration.

## Website

Generalised difficulty with registration process via website.

## General

We are the lucky country having so many dedicated nurses as role models - thank you

Great stimulation for the neurons

Knowledge is power

Everything else was fantastic

Fantastic conference with a great range of health science research and innovations

My first ACNC conference - will come again

Overall I had a fantastic time - thank you

Very informative & inspiring and excellent opportunity for a nursing led conference.

Great learning forum

Thanks to all the committee members for making this conference such a success
